DETAILED ACTION

Information Disclosure Statement

The references marked on the Information Disclosure Statement filed 02 April 2004, page 3 of 4, fail to comply with the form of citation set forth by MPEP § 707.05(e).

The references marked on the Information Disclosure Statement filed 24 May 2004 are duplicates of those filed on 07 March 2005.

Allowable Subject Matter

Claims 1-45 allowed.

The following is an examiner's statement of reasons for allowance: With respect to independent claims 1, 16, 24, and 39, the neutron detector structure with cavities extending from a first and second surface was not found in prior art. Also, the particular stacking of neutron-responsive layers and contact layers was only found in US 6,545,281 B1, which comes from the same author and was published less than one year prior to the effective filing date of this application. The methods described by claims 42 and 44 were also not found because of the recited cavity structure. Furthermore, none of the independent claims were found to be obvious combinations of prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
